Premiere Pro

WORK EXPERIENCE

Ory Germany GmbH

2022-present

Contract Designer

I worked closely with the lead designer to create digital assets for web use. These designs were created using Figma and were created for:

- Website illustrations
- Marketing campaigns
- Merchandise prints

I gained a lot of experience working with this company and also aided in creating a few animations for their website. One of my main accomplishments were being one of the core designers of redesigning the website in a fresh style, particularly for illustrations.

Freelance Video Creator

I also created motion graphic videos for this company for their products. This meant breaking down complex ideas into simple explanations with the following achievements:

- Assisted with the creation of video content for marketing purposes.
- Guided video content and production processes to achieve ultimate results.
- Assisted in designing Storyboards using Figma to align video with corporate branding.
- Use of After Effects to produce and edit the final Motion Graphic video with revisions until client is satisfied.

Oleaintueri

2021-2021

Freelance Video Creator

I created a motion graphic video for their product SwiftQ with the purpose of attracting users to their platform. This included the following:

- Assisted with the creation of video content for marketing purposes.
- Story boarding and revision until client is satisfied.

EDUCATION

Monash University

2017-2020

Bachelor's of Computer and Information Sciences

- I completed a degree with a Major in Mobile Systems. I learned to collaborate with unwilling participants, security in software and networks, wireless networks and how to set them up, Usability and how a user interacts with a system, and developing a fully-functioning system for a client - from documentation to deployment.
