EXPERIENCE

Freelancer, Cape Town — Designer/Creative

May 2023 - PRESENT

I design websites and other media for companies and individuals as a freelance job.

As a creative, I produce my own music, direct music videos and work as an actor through an acting agency.

Ory Systems GmbH, Germany — Design Contractor

July 2022 - April 2023

I worked as a designer for a German Cyber Security company with the main focus of updating their website's illustrations and assisting in overhauling the design language.

Freelancer, Multi-Regional — Video Creator / Photographer

January 2021 - June 2022

I created YouTube content for my personal channel as well as created Motion Graphic videos for companies based on their needs. I also did photography work and did a photo shoot for a wedding dress designer in George for her newest dresses.

EDUCATION

Monash University, Australia — Computer and Information Sciences

March 2017 - November 2020

I completed a Bachelor's Degree at an Australian university that taught me computer science fundamentals alongside business fundamentals.

Learn 3D, Johannesburg — Game Maker

March 2013 - April 2013

This was a short course to learn the fundamentals of Game Maker to create 2D games with C#.

PROJECTS

Inadequate Music Video — Artist / Director

I am directing a music video for my single, "Inadequate" that is being released on all streaming platforms in August/September.

SKILLS

Music Production / Mixing

Cinematography

Videography

Photography

Acting

Voice-over Acting

Figma

Adobe After Effects

Adobe Premiere Pro

HTML/CSS

User Interface Design

Blender

LANGUAGES

English

Afrikaans

Inadequate Song— *Artist / Producer*

This is my latest single that I produced and performed. This track is produced and mixed by me, and mastered by Tyler Low, a producer and musician based in Johannesburg.

Sinking Music Video— *Director / Artist*

I directed a music video for one of my songs, “Sinking” that involved lighting setups, various locations and choreography. The video is available to view on [YouTube](#).

Website Overhaul— *Illustrator*

I worked with Ory Germany GmbH to overhaul their website and create illustrations for their content pages. I primarily worked in Figma to create these designs and occasionally used After Effects or a similar tool to animate them. The project can be viewed [here](#).

Personal Website — *Designer*

I created my own website using HTML/CSS. I only needed a basic site so the HTML/CSS was more than sufficient for my needs without using complex libraries that could unnecessarily bloat my website such as Gatsby.
